PERSONAL STATEMENT

I am always looking for new ways to bring value to the teams I work with, I love collaborating with others, and my communication and teamwork skills help me to connect and empower others to easily get things done. I've picked up a good mix of technical expertise in industries such as cybersecurity and development. Not only that, I'm adaptable, a natural problem solver, and have a strong sense of community and leadership. I'm excited to bring these skills to any team and help drive success.

Work Experience

2024 June-August

**ABtec , Wigan Manchester
Intern IT Support Engineer**

During my summer holidays, I was really interested in getting real world experience in the industry that I wanted to be apart of, more specifically, the cybersecurity side. During this time, I learnt an array of transferable skills and valuable industry knowledge

Key Skills learnt.

- Experienced enterprise level security solutions
- Collaboration
- Problem solving
- Hands-on experience with industry software and hardware
- Attention to detail

2022-24

**SuD Media, Wigan Manchester
Freelance Graphic Designer**

As a freelance graphic designer, I gained many great lessons, opportunities, and experiences. I've worked with some professional clients which helped me gain a view of what company life is like while still being able to be flexible with my time.

Key Skills learnt.

- Money management
- Communicating formally with clients
- Networking and outreach
- Never miss opportunities to grow
- Management skills

Skills

- **Highly Motivated** - I'm an extremely motivated person, always striving for success. I love a challenge and am constantly on the lookout for chances to learn and improve. I work hard to achieve my goals and I've got a strong work ethic and a positive attitude, which I know will make me an asset to any team.

- **Communication and Teamwork** - I'm all about working together to achieve common goals. I firmly believe that communication is the cornerstone of any successful project or team, and I consistently strive to foster strong working relationships through open and honest dialogue.

- **Interest In CyberSecurity** - During my own time, I have spent countless hours learning and improving my knowledge in the cyber sector. I love finding bugs in systems, because of this I find learning and practising my skills in cyber labs such as HackTheBox and TryHackMe extremely fun. Not only this, the need for cyber security is ever growing, and I want to be able to bring these skills I am learning to have a real-world impact wherever I work.
